

Aspirations of Art

Dreams, ambitions, aspirations, motivations
Make us get up, take us on a ride.
Reach the goal then we are free to continue.
Sense of achievement then glory

However when we are not recognized
Built up, then knocked down, like dirt,
Left empty and disillusioned.

Have hope and be happy the art is yours.
You are ahead of your time
Visions clearly not yet understood
Those who do not yet understand are far behind
Aspirations are the fundamentals of the future
To change the world and make someone happy.

Keep it interesting, amusing, entertaining
To take one away from banality, reality
Art is a reflection of life of art.
And escapism is the force to make you see,
Another world, another time, mystery and magic.

So boldly tread where none has been before
And make those dreams and imaginings
Part of your life and art, and share them with the world.
