

## Inside my Flat

My flat has only one bedroom,  
And is messy, for it is my nature  
Therefore it has a homely feel.  
It has books lying around,  
On the floor, on the coffee table,  
Also where they belong,  
On the shelves.

The radiator is often covered in clothes,  
With his clothes lying on the floor.  
His wardrobe I call it, he's as messy as I.

We have made an attempt at decorating,  
On the mantelpiece are Christmas and birthday cards,  
As well as a carved wooden beaker from Africa,  
From his trip to Malawi, and a vase I painted mushrooms on.  
On the wall is a picture of the isle of Arran,  
Its snow covered mountains bringing nature in.  
There are also four other paintings on the shelf,  
Which I painted myself. A set of sea life;  
A starfish, a seahorse, seaweed and a squid.  
I like to add my personality to my decor.

In the bedroom the bed is broken,  
We have been sleeping on the mattress,
