

## Our love

You are singing joyfully in a major key,

Your joy infecting me, and loving you.

Your love conquering me at every opportunity.

It is the story of our love, spreading,

As you sing to the party our tune,

It is special, for I know it is meant for me.

My heart beats my love, when you sing for me,

Alone in the gardens, and our lives are enriched,

With every note, every loving beat.

And we dance our love,

I Listen to your voice,

It is like being in heaven.
